

## Full Scope O&M for Solar and Storage Assets

Origis Energy Services delivers a proven approach to Operations and Maintenance that aligns with your interests and safeguards your agreements from going over budget. The insights we bring to your next project come from serving over 4 GWdc of utility-scale and distributed generation solar and over 1 GWh of energy storage projects.

### O&M Services

The Origis Services scope of services is industry best practice, configured so your asset is finely tuned and operating for optimal energy performance.

#### Full-Scope O&M

- 365, 24/7 Real-time, Cloud-based Local & Remote Monitoring
- Network operations center (NOC)
- NERC/CIP Compliant Remote Operations Center (ROC)
- On-site staff plant management
- Grid authorities interface and compliance
- Curtailment and response management

#### Proactive Maintenance

- Performance Engineering, Analytics & Continuous Improvement

#### Emergency & Incident Management

- Extreme Weather Response

#### Equipment Service, Repair, Inventory & Warranty Enforcement

- Parts, Tooling & Supplies

#### Aerial Testing & Inspection

#### Robust Reporting

#### Rigorous Environmental Health & Safety Procedures

#### Environmental Management

### Remote Operations

With one of the industry's largest Remote Operations Centers, a 10,000 ft<sup>2</sup> facility that can house 70 personnel and support 500 field technicians, we back our service with world-class data monitoring, an integrated software suite, and industry-proven expertise.

## Featured Project

### Aktina Solar

Wharton County, TX — 625 MWdc

The 625 MWdc / 500 MWac Aktina Solar project in Wharton County, Texas is the first solar asset for Tokyo Gas America in the U.S. Located near the Houston load center, Aktina is slated to be brought online in blocks starting in mid-2021 and will deliver power to the Electric Reliability Council of Texas (ERCOT). The solar farm spans 4,000 acres, utilizing approximately 1.4 million solar modules.

## Ready for Comprehensive O&M?

Contact the Origis Services sales team at +1 512 287 7424 or fill out our service cost request form to start your next project knowing the true cost of O&M.

### About Origis Services

Origis Services delivers the promise of clean energy with operations and maintenance (O&M) services for solar and energy storage across North America. The team manages a diverse utility scale and distributed generation portfolio with experienced professionals backed by a state-of-the-art NERC CIP Compliant Remote Operations Center (ROC) located at its headquarters in Austin, Texas.
